

7. (Previously Amended) The method of claim 6, wherein the method does not comprise selecting an agent based on its ability to inhibit FKBP-12 rotamase activity.

11. (Thrice Amended) The method of claim 6, further comprising [selecting a FK506 analog] determining whether one or more FK506 analogs of interest has the ability to inhibit rotamase activity in order to select an FK506 analog that does not inhibit rotamase activity.

15. (Previously Amended) The method of claim 6, wherein the assay for activity in promoting nerve cell growth comprises exposing a cell to the selected FK506 analog and determining if neurite outgrowth is promoted.

TECH CENTER 1600/2900

Please cancel claim 19.

I 20. (Previously Amended) A method of identifying a FK506 analog that stimulates nerve cell growth, the method comprising:

screening a plurality of FK506 analogs for binding to FKBP-12;

selecting one or more FK506 analogs of interest that has a  $K_d$  for FKBP-12 of at least 100  $\mu\text{M}$ ; and

assaying of one or more of the analogs of interest for activity in promoting nerve cell growth.
